

**Doors and trim** are also very popular upgrades for your house. After years of abuse you can replace the old trim with new trim and increase the value and freshen up the look of your house. Doors can be replaced at the same time giving you a fresh new look to the most used item in the house.

**Kitchen and Bath** remodeling are the two areas of the house that will bring your house up to date and make the areas used daily more useful. These two areas also add the most value to your

house. With every day use the years have a way of taking their toll on your cabinets and counter tops. If you need tile on the floor or walls of your

kitchen or bath we can do that too.

# Bobcat Rental

## Versatile, Limited-Access Problem Solver

Bobcat Mini Track Loaders deliver big machine performance in a personal package. These loaders combine the attachment versatility of its larger sibling Bobcat machines with the convenience of a walk-behind loader. Its small size and turf-friendly track drive make the Bobcat mini track loader a great solution to limited access and low-disturbance tasks.

# DONE RIGHT CONSTRUCTION & REMODELING LLC

With over 15 years experience in the construction and remodeling industry, building and designing fences, decks, and many home remodels in the Dells, Baraboo, Reedsburg, Madison and surrounding WI areas. Done Right specializes in working on projects that require many different items being done on one job site. Examples would be complete home remodels or just the kitchen or bathroom.

We do flooring, cabinets, countertops, all types of trim, door replacement, Windows, T&G walls, vinyl siding and much more. We even do outside projects like Fences, decks, and out buildings. Our first vinyl job was over 15 years ago with over a hundred of them since.

Our commitment to our customers projects and working closely with the customer have always been our strongest assets and we will continue this tradition in to the future.

## DECK'S & FENCE

We love the outdoors as much as our customers and feel that that time should be as carefree as possible. With that in mind we offer many options to our customers to choose from.

**Vinyl products** are the longest lasting and are best suited for outdoor use. Whether it is for deck and railing applications or for containing kids and pets in your yard. These materials have proven them-

selves for many years as being strong and staying sharp

looking for many years to come. They come in a variety of colors. The best way to tell if you are looking at quality vinyl is to watch the warranty, many vinyl's look the same but differences in wall thickness and materials added to the raw vinyl resin make the difference in how long the product stays looking nice, and stays strong. For this reason we recommend our vinyl lines over other brands. Through many years of experience with the product we have found that the extra money spent for quality has paid off many times over in dependability.

**Wood fence and decks** have been in use for many years and continue to be vital in certain applications. If you have a log or rustic home or if you are looking for an economical way of enjoying the outdoors

wood can fill your needs. You will need to do some maintenance as time goes on like staining and cleaning to get the most out of wood. If you prefer to upgrade to better types of wood like cedar, and redwood or even one of the new composite materials we would be happy to fill your needs.

**Chain link fence** has been the most economical fence for many years and continues to be one of the most popular types of fence for kids and pets. It offers strength and security for the home owner. It comes in standard galvanized and even vinyl coated in basic colors black, brown and green.

## NEW CONSTRUCTION

Do you need a new garage or maybe a storage shed for all the mowers and bike's so you can get the car back in the garage?

We offer new construction of small buildings. We can also help you with the new house of your dreams. Do you have a new modular home that needs finished up so you can move in. Maybe you are having a new home built and need someone to do the finish work or do tile or wood floors. Is it new windows and doors that need to be installed? Give us a call and we will be happy to help you with your new home and make it a dream come true.

## REMODELING

Do you need new kitchen cabinets, or countertop? Is the floor in need of replacement? Done Right offers complete remodeling services whether it be simply changing the trim in your house to redoing the entire house.

**Flooring** is one of the most common projects being done right now. Many customers are replacing carpet with ceramic tile for ease of maintenance with kids and pets. Some want the beauty of a wood floor. We can help you with both.
